

Safety Gear

Pre-reading

Questions:

- What kind of special clothing do you wear for safety at work?

Definitions:

- Gear – equipment, clothes, or tools used for a special purpose or activity
- Apron – a covering for all or part of the front of the body

Reading

13 Staying safe and healthy at work is very important. Your employer does not
32 want you to get hurt on the job. It is important to always use the right gear on the
job. Many people need special gear at work.

40 Maria and Carlos clean industrial fabrics. They wash the fabrics with liquid
52 chemicals. Sometimes these chemicals spill. Their rubber boots **protect** Maria and
63 Carlos from slipping on wet floors. Maria and Carlos must wear rubber boots at
77 work. They must wear rubber gloves to protect their hands from the chemicals.
90 Rubber boots and gloves are required for workers' safety.

99 Mary is a cook at a restaurant. She is **required** to wear a hairnet at work. She
116 does not like wearing her hairnet, but she does understand why it's important.
129 Hairnets keep hair out of the food. Hairnets also keep long hair from getting caught
144 in the blenders and mixers cooks use. Mary wears an apron to protect her clothing.

159 Juan is a nurse's aid at a nursing home. He must wear special gloves when he
175 works with blood. The gloves protect him from getting diseases.

185 Always use the right safety gear on the job. The gear will protect you from
200 getting hurt. If your gear is broken, tell your supervisor right away. Your supervisor
214 will help you get new gear.
